## What is a Set?

Sets are carefully matched small groups of peers from diverse locations who operate as a powerful network of collaboration. The focus is on real work, real time, real system issues and the synergy created by learning from each other.

## Face to face Meetings

The Set meets for one and a half days four times a year, rotating between member locations. Your Set is led by a HardyGroup Facilitator whose personal career is at the top of the sector. The addition of an expert guest speaker is the members' choice.
